## BIG CONGRESS

Large Delegation at Trans-Mississippi Convention.

A MEXICAN WARSHIP LAUNCHED.

American Association of Opticians Meet at Boston.

BAR HARBOR HORSE SHOW.

St. Paul, Minn., Aug. 19.—Over 1,500 delegates gathered in the Auditorium today at the opening of the thirteenth annual session of the Trans-Mississippi Commercial congress. The morning session was devoted to welcoming the guests. The greetings of the St. Paul Commercial club, upon whose invitation the congress met here, were given by President Boardman, of that body. Mr. Boardman gave way to Mayor Smith, who proffered the welcome of the city, after which Governor Van Sant performed a similar duty as chief of the state of Minnesota. Brief responses were made by President John Henry Smith, of Utah; Secretary A. F. Francis, of Colorado, and other officers and leading members of the congress.

The convention adjourned two hours for luncheon, and in the interval the delegations prepared their lists of representation on the committees. At the beginning of the afternoon session the committees were appointed, credentials examined, and the convention regularly organized. These preliminaries occupied the greater part of the afternoon session.

The program for the session of the congress is only partially outlined. The executive committee has decided that it would not set any fixed time for the discussion of various topics. They will be taken up in order. As rapidly as one is exhausted another will be introduced. In this manner members will be able to devote time to each subject in the proportion that they are interested in it.

The largest and most notable delegations in the convention: Utah, Iowa, Missouri, Arkansas, Kansas, Texas, Colorado, California, Arizona, Washington, Oregon, New Mexico, Wyoming, Montana and the Dakotas. The convention is made up of delegates selected thus: The governor of each state and territory appoints ten delegates, the mayor of each city one delegate, and an additional delegate for each 5,000 inhabitants, provided, however, that no city has more than ten delegates; each county one delegate, through its executive officer; every business organization one delegate, and an additional delegate for every fifty members, provided, however, that no such organization has more than ten delegates. The sessions are to continue through Friday, and owing to the many subjects to be discussed and the number of speakers to be heard it has been decided to hold three sessions daily. Los Angeles, Seattle, Sacramento and New Orleans are candidates for next year's meeting of the congress.

MEXICAN CRUISER.

Warship for Mexico to be Launched in New Jersey.

The event will be made the occasion for interesting ceremonies, and a number of prominent Mexican officials will take part.

The Tampico is the first of two warships now under construction here for the Mexican government. With her sister ship, the Tampico should have been ready for service last January, but because of the dearth of steel her construction has been materially retarded. The Tampico is intended for

patrol duty along the Mexican coasts, and in her way will be a valuable addition to the country's tiny naval force. Besides being technically a small cruiser, she will be fitted out to serve as an army transport. In addition to quarters for her complement of 150 officers and seamen, accommodations will be provided for troops to the number of 250. The Tampico is about 300 feet long and 20 feet beam. She is built of steel, and will have a contract speed of sixteen knots. Her armament will consist of four 4-inch rapid fire guns and four 6-pounders. She will carry two searchlights and two steam launches, and will be fitted with two steel masts for schooner rig.

The Jerome mine was discovered by Mr. Thomas early in May and is located in the San Lorenzo mountains, about six miles from San Acacio, a small station on the Magdalena branch of the Santa Fe. Mr. Thomas and his associates have put down a shaft about forty feet and have taken out about sixty tons of exceptionally fine ore.

Copeland Rohrabacher, a talented writer who has earned a well deserved prominence for special newspaper and magazine work in Colorado and elsewhere in the west.

## STRIKER KILLED

His Death Excites the Striking Miners.

BOER GENERALS AT ROTTERDAM.

Serious Warlike Complications Have Arisen in Central America.

OIL WORKS BURNED IN COLORADO.

Lansford, Pa., Aug. 19.—A train bearing General Gobin and the First battalion of the Twelfth regiment from Shenandoah steamed quietly into town before daybreak this morning. The strikers were worked up to such a high pitch of excitement last night over the shooting of Sharp, who was one of their leaders, that it was feared an outbreak would occur. The soldiers came at the request of the sheriff of Carbon county. No demonstration was made here or at Nesquehoning. The strikers denounce the killing of Sharp as unprovoked, cold-blooded murder, while the deputies and the coal company officials declare that the shooting was done in self defense.

RESTLESS REPUBLICS.

Central America Pocket Boroughs Always in Deep Trouble.

Panama, Colombia, Aug. 19.—Serious international complications may arise at Buena Ventura, where the Colombian authorities have been endeavoring to compel the agents of the British steamer Ecuador, owned by the Pacific Steam Navigation company of Liverpool, to transport troops to the Isthmus. The Colombian government had assembled 2,000 troops under General Velazco, intended to reinforce the army in this vicinity. The government officials at Buena Ventura threatened to compel the steamer Ecuador, which was at that port to transport the reinforcements to Panama. Agents of the line refused to embark the troops and appealed to the company's representatives here, who in turn placed the matter before the British consul, with the result that the Phaeton was sent to Buena Ventura to protect British interests. The action of the Pacific Steam Navigation company in refusing to transport troops has caused indignation in Colombian government circles, it being claimed that a contract was made by the government in 1879 with the Pacific Steam Navigation company in consideration of which the company agreed to transport Colombian civil and military employees, prisoners, mails and soldiers at special rates.

W. R. Edwards, Mamie's dusky lover, got in the game at the finish and while the two girls mixed on the floor, waved a razor in the air, and told his lady love to murder the opposing ping pongist. Judge Crawford found them guilty and fined the Smith girl \$25 and costs, and her lover, Edwards, was given ninety days in the county jail.
